Subjective

A passionate Full-Stack Developer candidate seeking to start a career in the field of Computer Programming. Known for my hardworking ethic and exceptional people skills along with collaborative work ethic.

EDUCATION

Algonquin College

Ottawa, ON

Ontario College Diploma in Computer Programming - Graduated with Honors - GPA 3.88/4 Se

Sep. 2021 - Apr. 2023

PROJECTS

Professor Directory Web Application | Java, Maven, JSF, JPA, EJB, Bootstrap, SQL Sept 2022 - Oct 2022

- Developed a web application using Java, JPA and Bootstrap to create a Professor Directory with CRUD functionality as well as a user- friendly interface
- Utilised the MVC pattern to divide concerns and maintain a structured design, and used JPA's object-relational mapping for easy interaction with the database.
- Improved knowledge of J2EE concepts, database integration skills, front-end programming skills, and adherence to industry standards

Movie Information App | Java, Android Studio, SQLite, Git

Nov. 2022 - Dec. 2022

- Developed an Android movie information app in a group project using Java and SQLite in Android Studio.
- Developed the app to allow the user to search and save the movies they wish to learn more information about.
- Collaborated with team members to combine different app projects in a separate app by using GitHub.

CSV Data Management Application | Python

April 2023 – May 2023

- Designed and implemented a console-based application using the MVC pattern to establish a clear separation of concerns and guarantee the codebase's maintainability and scalability.
- Used Python's built-in CSV library to ensure precise and dependable CSV data manipulation
- Implemented advanced data retrieval and manipulation tools, allowing users to perform CRUD operations on the CSV dataset, demonstrating skills in problem-solving.
- Comprehensive input validation and error handling methods were implemented to guarantee data integrity and improve application's stability.

Responsive React JS Portfolio Website | JavaScript, HTML, CSS, React, Node.js Sept. 2023 - Oct. 2023

- Designed a responsive website using React that showcases personal achievements and gives easy contact options.
- Implemented floating navigation bar feature, as well as theme customization options and more.
- Demonstrated CSS practices to enhance the website's overall design.
- Compatible with phones, tablets, and laptops.

TECHNICAL SKILLS

Database and Languages: Java, Python, SQL (Oracle, MySQL, PostgreSQL), MongoDB, Neo4J JavaBeans, JSP,

JavaScript, HTML, CSS, PHP

Frameworks: React, Node.js, JUnit, Hibernate, JSF

Developer Tools: Git, VS Code, Eclipse, NetBeans, Android Studio, WireShark, Ubuntu

Libraries: Pandas, NumPy, Matplotlib

Agile Foundations: Linkedin Certificate of Completion

Agile at Work: Building Your Agile Team: Linkedin Certificate of Completion

Project Management Foundations Requirements: Linkedin Certificate of Completion

Agile Development Practices: Linkedin Certificate of Completion

Agile at Work: Getting Better with Agile Retrospectives: Linkedin Certificate of Completion

Agile at Work: Planning with Agile User Stories: Linkedin Certificate of Completion Agile at Work: Driving Productive Agile Meetings: Linkedin Certificate of Completion Agile at Work: Reporting with Agile Charts and Boards: Linkedin Certificate of Completion

Software Testing Foundations: Test Techniques: Linkedin Certificate of Completion
